

Base Trim Installation Sheet

This 4 pc Base trim can be used for Kroy's 6 ½ x 6 ½ post wraps and 4 x 4 post wraps. Each piece of base trim has score marks in the back of it, all of which will indicate the size of the post that it will be used on. Cut with a sheers or snips and slide together to create the base trim. If you will use this base trim on a 6 ½ x 6 ½ post there is no need to cut.
